

Table Tent Printing Instructions

1. Print table tents on 11"x17" or A3 card stock paper (thicker/harder than regular printing paper). The dimension of the pair of table tents is 9"x12". DO NOT resize the image to fit the paper.
2. There will be some white space all around the table tents. Cut and discard the white spaces on the left and right of the tents. Leave the white spaces on the top and bottom (#1-4 above) as these will form the base of the tents.
3. Fold the tents and use double-sided tape to hold in place.
