(Primary school in Banda Village, Rwanda)

## Banda Village, Rwanda

### The school meal program's start for primary/secondary schoolers with a brand new kitchen

The construction of a school kitchen equipped with three ovens, a serving table and a kitchen cabinet has been completed in Banda Village. Prior to the new kitchen, school meals had been supplied to 300 nursery students. TFT can now provide its meals to over 2,200 students including primary and secondary school students.

#### A Two-time Trip By Foot

Porters walk a few kilometers to two schools twice a day, each carrying a container of 28L porridge on their heads.

#### A Reason to Study Again

With the implementation of the feeding program, many students have returned to school. Some have even come back after 2-3 years of absence.

#### Message from TABLE FOR TWO Executive Director Masa Kogure

I remember seeing children looking somewhat fatigued on my first visit to Banda Village. The reason behind this was that there was no kitchen available to provide for enough school meals. Thanks to one of our partnering companies, a brand new kitchen has been built. Primary and secondary school students can now eat alongside their little brothers and sisters.

#### Republic of Rwanda

- Capital city: Kigali
- Languages: Kinyarwanda, French, English

Rwanda's land consists of a vast wave of rolling hills alongside a wide array of terraced fields.

In addition to agriculture and the mining industry, the nation is putting effort into becoming an IT specialized country.
